THURSDAY, SEPTEMBER 16, 1897.

NEW ORLEANS is infected with a few cases of yellow fever.

The indebtedness of Gila county is estimated to be about \$45,000.

SOME of our daily exchanges are still running the Labor Day proclamation as live matter.

WE are thinking seriously of going to Klondyke to lecture as eggs are \$12 per dozen in that market.

THE time for filing notice of building railroads with the Secretary of the Territory expires to-day.

A KANSAS woman lawyer, named Mrs. Lucy O'Case, of Topeka, is training for the race for associate justice on the Socialist's ticket next fall.

MRS. NELLIE FEELEY of Kansas City, captured a burglar last week in the act of carrying away her jewelry and silverware, and turned him over to the police.

CONNECTICUT has an eighteen-year-old girl bandit. The male bandit will soon be a back number. If we have to be held up we prefer a handsome woman robber to any ugly man bandit.

ARIZONA caught two appointments last Friday: J. Porter Moffat was appointed postmaster at Mohawk, and Edwin J. Berranger was appointed teacher of the Colorado river Indian school.

WE agree with the Phoenix Republican that "to the victor belongs the spoils." We believe that every office from the highest to the lowest should be filled by persons of the same political faith of the national administration.

THE Phoenix gazette is very inquisitive of late. Here is a question it puts: "Will the new woman hang up her stocking Christmas or her bloomers?" As we haven't consulted the new woman on this subject we can't answer, but presume she has the right to hang up both articles.

A crab apple tree in Dr. G. W. Vickers' yard is doing double duty this year. In the early spring it bloomed and soon afterwards a liberal supply of crab apples appeared. The apples grew nicely till about the first of July, when the heat and winds seemed to stunt their growth, and before maturing and ripening, they shriveled and dried up. To make amends, apparently, for its miscarriage in failing to ripen its first crop, the tree is now again laden with bloom, and a second crop may appear before the frosts set in.—Journal-Miner.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Add., F. J. CHENEY & Co., Toledo, O. Sold by druggists 70c. Hall's Family Pills are the best.

TERRITORIAL

Yuma has an organized bicycle club of eighteen members.

The opera house at Bisbee has a new outfit of scenery and stage accessories.

Thirteen notices of intention to build railroads in Mohave county have been filed with the secretary of the Territory.

On Monday last Dr. W. E. Lindley removed from the arm pit of Edgar Sessions of Thatcher, a bullet that had been located there for over 28 years.—Graham Guardian.

Articles of incorporation of the Coconino Copper company were filed yesterday. The incorporators are Wm. F. Ellis, Horace M. Oliver and Harvey R. Oliver. The capital stock is \$100,000.—Phoenix Gazette.

On Monday last a young girl was attacked by a brutal Mexican at Clifton and badly cut her in two places. He wanted her to marry him and when she refused he attacked her with a knife, inflicting two ugly gashes, one from the shoulder down the left side and the other across the abdomen. The girl will probably recover. The would be murderer made his escape.—Graham Guardian.

A. A. Schwerin brought to the Bulletin office last week a sample of his experimental crop of sugar beets, for which he received seed from the Territorial University last spring. The beets looked to be of a most vigorous growth and a lot of six brought to this office averaged over two pounds in weight. Mr. Schwerin sent a sample of his crop to the University for test and is now waiting to hear from what has been the result, as he is of the opinion that the sugar beet crop can be made a most profitable one by the farmers of this valley.—Graham County Bulletin.

Lightning performs curious freaks. On Tuesday an electric charge struck the top of a tree near H. M. Hartson's Oak Park dairy. It followed down the tree for several feet, when it came in contact with a large projecting limb, when the electric current seemed diverted into the body of the tree, shattering it into a million pieces. It continued its course toward the ground until a steel clothes line was encountered, when a portion of the current followed it to a post, near which a chicken coop stood, killing every chicken in the coop. The lightning then seemed to leap from this post to a gate post a short distance away, through which it entered the ground, shattering the post into atoms. Mr. Hartson and family were considerably shocked by it, and the former says he experienced a severe pain in his head immediately afterwards, from which he did not recover for twenty-four hours.—Journal-Miner.

As fine peaches and grapes as ever were picked are now coming into Prescott from Skull and Verde valleys and from the Clough ranch, near the Point of Rocks. The climatic characteristics of the region are such as seems to give the highest flavor and the ruddiest blush to the peach and the apples are such as memory conjures in the old homestead in boyhood days. The potatoes raised around Prescott have not as high a fame as those raised at a higher altitude, but for other vegetables Yavapai county cannot be excelled on earth. Cabbage and cauliflower there grow in perfection, while for asparagus, there cannot be anything better on earth. The vegetables last named in the valleys of Southern Arizona are small and the stalks are ever green and pithy. Near Prescott they are as thick as a broom handle and tender and delightful enough to win the approbation of any modern Lucullus.—Phoenix Gazette.

\$2000²³

Any baking powder will lighten your cake, if that's all you want. Some are stronger than others, some more wholesome.

Schilling's Best is both and more too.

A Schilling & Company San Francisco

Liver Ills

Like biliousness, dyspepsia, headache, constipation, sour stomach, indigestion are promptly cured by Hood's Pills. They do their work.

Hood's Pills

easy and thoroughly. Best after dinner pills. 10 cents. All druggists. Prepared by C. I. Hood & Co., Lowell, Mass. The only pill to take with Hood's Sarsaparilla.

Water Analysis.

J. M. Simpson has received from W. A. Powers, a chemist of Topeka, Kan., an analysis of the water of the Jack Smith spring, which we give. Grains per U. S. Gallon.
Organic.....11.956.
Carbonate of lime..... '936.
Carbonate of sodium..... 1.327.
Chloride of sodium..... .957.
Sulphate of sodium..... .197.

15.673.

The chemist says in his analysis that this water is rated very good for boiler use.

Chamberlain's colic, cholera and diarrhoea remedy always affords prompt relief. For sale by D. J. Brannen's drug store.
